

BEROA+ project

CO-FINANCED BY THE BASQUE GOVERNMENT (DEPARTMENT FOR ECONOMIC DEVELOPMENT, SUSTAINABILITY AND ENVIRONMENT) AND THE EUROPEAN UNION THROUGH THE EUROPEAN REGIONAL DEVELOPMENT FUND 2021-2027 (ERDF)

The R&D project carried out by **Arrospe S. Coop.** entitled "Research in New Technologies for the Industrial Valorization of Residual Thermal Flows" has been co-financed by the Basque Government and the European Union through the European Regional Development Fund 2021-2027 (ERDF).

**Europar Batasunak
kofinantzatur**

**Cofinanciado por
la Union Europea**

BEROA+ is a project that aims to investigate new technologies for the industrial recovery of low temperature residual thermal flows to support the decarbonization of the industry.

This is a multiannual strategic industrial research collaboration project (2023-2025) involving the following entities and/or agents of the Basque Network of Science, Technology and Innovation: TAMOIN S.L.U. (leader), ARROSPE, S.COOP., INSTALACIONES FRIGOLAN S.L., SEDICAL S.A., ARA TRANSFERENCIAS TERMICAS S.L., GENELEK SISTEMAS, S.L., MIESA S.A., PAPRESA, S.L., UNILEVER FOODS INDUSTRIAL ESPAÑA S.L.U., NATRA OÑATI, S.A., FUNDACION TECNALIA RESEARCH & INNOVATION, BCAM-BASQUE CENTER FOR APPLIED MATHEMATICS, ENERGY CLUSTER ASSOCIATION.
